Harriet Hageman June 21, 2017 Lunch Guest Speaker

Harriet Hageman has given many speeches on Regulation Without Representation, concerning the incessant flood of regulations being produced by unelected federal bureaucrats and their effect on U.S. industries. Ms. Hageman states that she is not against the federal government, but is "anti-bad, wasteful government that is taking our liberties."

**"Now hear Harriet's view on the
"The New Era of Regulations".**

**The number one comment after Harriet speaks;
"I wish she could have spoken longer!"**
